Currently, the owner of a $100,000 home pays around $1.20 per month for the Hawkeye Community College levy. The levy rate for the college will not change if the referendum is renewed.

Hawkeye Community College is equipping the next generation to lead, serve, and invest in our community.
Renovate and expand an existing building to create a skilled trades and apprenticeship center. Construction, HVAC, plumbing, electrical, automotive and diesel technology programs will now be under one roof, improving efficiency.

Add a STEM Learning center to our facilities, including new, interactive learning technologies such as virtual reality or augmented reality, diversifying student learning opportunities for our middle school and high school students.

Expand law enforcement training programs, including replacing and relocating aging, indoor and outdoor firing ranges in the Law Enforcement Training Center. This will help train new officers and continue training for current officers.

Upgrade aging mechanical, plumbing, and electrical infrastructure in various buildings around campus.

Approval of the bond referendum will not change your property tax rate.
